

GR-1

Single Door Reach-In Refrigerator

Glacier reach-in refrigerators are built to meet the needs of any foodservice application, delivering top performance without sacrificing style. These single door refrigerators come factory equipped with field reversible hinges. The sleek design features recessed door handles, ensuring a comfortable grip and making it easy to wipe away food, grease and bacteria. A bottom-mounted compressor ensures efficient cooling, while digital controls let you adjust the temperature precisely. Self-closing doors and auto-defrosting help save energy and maintain temperature, while adjustable shelves and swivel casters make maintenance a breeze.
